

Submission of Special Issues

Innovations, Revue d'économie et de Management de l'Innovation/ Journal of Innovation Economics and Management

The submission of special issues to *Innovations* requires the preparation of two issues on the same topic (one for the French version of the journal and the other for the English version). Only original articles are published in each issue and not translations of articles.

The form can be completed in French or in English. Only the call for papers must be in both languages.

Following receipt, the proposal is examined by the editorial board of the journal. The decision shall be taken within a maximum period of 2 months.

1) Title of the proposal

2) Draft version of the call for papers (1 to 3 pages in French AND in English)

3) Specify how the proposal fits into the journal's editorial line

4) Is the proposal related to a particular event (workshop, seminar, and symposium)? If yes, specify the theme and dates

5) Specify the planned period of submission of papers (all papers are processed via the Editorial Manager platform; this period may take several months, for example from 15 January to 15 May 2017)

6) Project leaders/editors in charge of the special issues

Please mention names, status, and affiliation. Submit a short CV for each editor. NB: the presence of foreign university editors is much appreciated.
