

Submission of a special issue
Innovations, Revue d'Economie et de Management de l'Innovation/
Journal of Innovation Economics & Management

Submitting special issues to Innovations induces preparation either of:

- Two issues (one in the French version of the journal; the other in the English version). Please note that original articles are published in each of the versions of the journal and not translations of articles.
- A single issue, in French in *Innovations, Revue d'Economie et de Management de l'Innovation* or in English in *Journal of Innovation Economics & Management*

The proposal can be written in only one of the two languages, only the call for papers must appear in both languages if guest editors choose to prepare two issues. After receipt, the file is studied by the editorial committee. The decision shall be transmitted within a maximum period of 2 months.

The file must include:

- 1) Title of the proposal**
- 2) Draft version of the call for papers (1 to 3 pages in French and English)**
- 3) Specify how the proposal fits into the editorial line of the journal**
- 4) Is the proposal linked to a specific event (workshop, seminar, colloquium)? If so, specify the theme, dates?**
- 5) Specify the deadline for submission of articles (all articles are processed via the Manuscript Manager platform: <https://jiem.manuscriptmanager.net>)**
- 6) Guests editors in charge of the number. Please mention the names, statutes and institutions of affiliation. Submit a CV of a few lines per editor. The presence of foreign university publishers is a valued factor in the submission, particularly for the *Journal of Innovation Economics & Management***
- 7) Mention, if post-publication events are planned for the special issue in order to inform the scientific or professional communities of its existence.**
